SKILLS:

1. Programming Languages Known:
    - ➢ C Language
    - ➢ C++ Language

- ➢ Java
- ➢ Python
- ➢ HTML, CSS, JAVA SCRIPT
- ➢ SQL
2. Extra Curricular Activities/Skills:
   - ➢ College Fest
   - ➢ Leadership
   - ➢ SportManShip

EXPERIENCES:

Project done:

1. **Bank Management System (JAVA):**- We used java to create a basic Bank M-anagement System. We added different features in the software like Account Creation, Amount Deposition, Amount Withdrawal, Account Details. We used different properties of Java to do so. We also used many inbuilt methods in our code. We also made sure to handle any possible errors that occur while the execution using the concept of Exception Handling.
2. **KBPCO APP(ANDROID):**- Computer Department Mobile Application is a system that delivers a modern way to present department information to users. This has a lot of advantages over the classic document/handouts method. A few of them are: Anyone can access it from anywhere which is not possible in the paper format. It also saves trees as individual copies are not required to be distributed. Also, convenience increases as everyone has a mobile phone these days. The details can easily be updated; which is not possible in paper format. It also helps us to save the environment as it saves papers required for documents.
3. **Following are some projects links done using HTML CSS and javaScript :**
- ➢ **e-shopping-website(Shopify):**e-shopping-cart-iota.vercel.app
- ➢ **blog-webpage:** blog-website-using-html-css.vercel.app
- ➢ **webpage (StudySync):** study-sync-webpage.vercel.app

HOBBIES:

- ➢ GYM
- ➢ DRIVING
- ➢ RIDING BIKES
- ➢ PROGRAMMING

SPEAKING LANGUAGES KNOW:

- ➢ MARATHI
- ➢ ENGLISH
- ➢ HINDI
